

## 2021 Industry Lecture

### **Dr. Matthias Leiendecker**

Associate Director Innovation at Merck Group, Darmstadt

### ***Industry vs Academia***

### ***A Synthetic Chemist's Perspective***

The talk will give an overview of research activities in industry and compares the methods, project management, and scope of the synthetic targets to high-level academic research from different laboratories in Europe and the United States. The speaker will give unique insights into ongoing research activities and results ranging from synthetic challenges in the pharmaceutical industry to medicinal chemistry research at Merck.

Time: Tuesday, Nov 2 @ 11:00–12:15 h (s.t.)

Location: Room NEW 14 1'02, Brook Taylor Str. 2, 12489 Berlin

**Afterwards:** Open informal discussion with the speaker. Students, PhD students, and postdocs are especially invited to learn and talk about industrial research activities and the process of job applications. Please join for lunch with the speaker.
